EduSahara™ Assignment

Name : Heights and Distances using Tables

Chapter : Heights and Distances

Grade : ICSE Grade X

License : Non Commercial Use

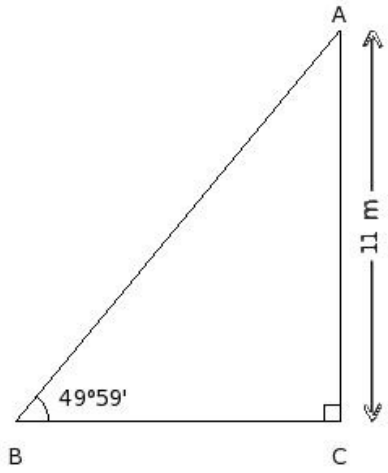

1. A radio tower stands vertically on the ground. From a point on the ground, the angle of elevation of the top of the radio tower is found to be 49°59'. If the height of the radio tower is 11 m, find the distance between the observation point and the top of the radio tower.

From Table of Natural Tangents

x°	0'	6'	12'	18'	24'	30'	36'	42'	48'	54'	1'	2'	3'	4'	5'
